

The Duke of Cumberland Arms

No one knows just how old the hamlet of Henley is; up until the 1950's the old turnpike was still laid with ancient pillow-shaped boulders. It's difficult to imagine how slippery these boulders must have been, having said that it has been told they were laid this way to help the horses toil up the hill in days of old. Extra horses were held here at the cottages to help with this task and the team needed watering, as did the drivers, and so the Duke of Cumberland came into being. Our aim today, at the Duke, is to provide you with a peaceful haven, in a tranquil corner of West Sussex, away from the hustle and bustle of work and busy lives.
